

MFS

INNOVATIVE PARTNER OF CHOICE
WE DELIVER MORE THAN WE PROMISE

MIS-Flex™

(Minimally-Invasive-Surgery Flex)

- Flexible printed circuit for catheter cables
- 2 meters in length
- Minimum part width : 1.0mm \pm 50um accuracy
- Copper Trace/Space: 35um/35um
- Single-side, Bare-back
- Impedance modeling & control

Enabling New Generation Medical Imaging Solutions:

High Resolution | Enhanced Reliability | Miniaturization
Cost-effectiveness

Our advanced design software, precision lithography & diversified dielectric material sets you apart from competition.
